

APPLICANT GUIDE

Welcome to AI:Xcelerator's Fund Raising Online Application

Thank you for your interest in raising capital with AI:Xcelerator, a programme of ApexCapitalAsia.Ltd.

To help us evaluate your company and understand your fund-raising needs, please complete the online application. Our team will review your submission and contact you afterwards.

The information you provide allows us to prepare a comprehensive **Private Placement Memorandum (PPM)** and to determine the most suitable route for your fund raise, whether a private placement, a Regulation A / A+ or Regulation CF offering, or a listing on a U.S. exchange (OTC Markets, NASDAQ or NYSE).

Start your application

<https://drmarcuzstan.github.io/fund-raising-online-application/>

Works in Chrome, Edge, Safari or Firefox on a computer. A laptop or desktop is recommended for uploading documents.

At a glance

Time needed	About 45–90 minutes. You can stop at any time and continue later.
What you need	Your company documents (see the checklist below) and basic details about your raise.
What you get	A draft offering document in Microsoft Word for your review. A copy is sent to our team.
What happens next	We review your application and contact you to discuss the best route for your fund raise.

Before you start: documents to prepare

You don't need all of these. Upload whatever you have. The more you provide, the more of the application is filled in for you.

☐ Pitch deck / PPT	Your latest investor presentation
☐ Teaser or one-pager	Short summary of the opportunity
☐ Write-up / business plan	Company profile, strategy or information memorandum
☐ Audited report	Most recent audited accounts, ideally two years
☐ Financial statements	Management accounts, P&L, balance sheet, cash flow (PDF or Excel)
☐ MD&A	Management's discussion and analysis, if available
☐ Legal / corporate	Company registration, constitution, cap table, share register
☐ Team / bios	CVs or profiles of directors and key management

☐ **Company website** The address only. The application reads it for you

Accepted file types: PDF, PowerPoint, Word, Excel, CSV, text and images (JPG, PNG). Maximum 30 MB per file.

Step by step

1

Enter your details and create your secure folder

On the first page, enter your **company name**, **your name** and **your email**, then click **Create my secure folder**.

A private folder is created for your company. Only the AI:Xcelerator team at ApexCapitalAsia.Ltd can see it.

Tip: Not sure what the final document looks like? Click **View the sample result** to see a finished example for a sample company.

2

Upload your documents

Under **What are you uploading?**, choose the type of document (or leave it on *Detect automatically*), then click **Upload files**. You can also drag and drop files onto the page.

Each file shows **Read** once it has been read and **Saved to Drive** once it is stored safely.

3

Add your website

Type your website address under **Your website** and click **Read my website**. The application reads your main pages (About, Products, Team and similar) and saves a copy to your folder.

Tip: If your website can't be read, open your About and Team pages, copy the text and paste it into the box below.

4

Let the application fill in your answers

Click **Fill in my answers from these files**. The application reads your documents and suggests answers to the questionnaire.

Review each suggestion. **Tick** the ones that are correct, edit or untick any that are not, then click to use them.

Tip: Nothing is used until you approve it. You stay in control of every answer.

5

Complete the ten short rounds of questions

Work through the rounds in the left-hand menu. Answers already filled in from your documents are shown for you to check:

- Your company • What you do • Your market • Your team • Shares & past funding
- Your fundraise • Money & numbers • Going public • Legal & risks • Final details

Plain-English hints under each question explain what is needed. If you don't know an answer, choose **Not sure** or leave it blank; we will go through it with you.

6

Check your answers and choose the type of raise

On **Your answers**, review anything listed under **Things to check**.

Under **Type of raise**, choose the document you need: Reg D private placement (PPM), Form S-1, Form F-1, Regulation A (Tier 1), Regulation A+ (Tier 2) or Regulation CF. If you are unsure, keep the suggested option; we will advise on the best route.

7

Write, download and send

Choose **Written by Claude (recommended)** and click **Start writing**. Drafting takes a few minutes.

Click **Download my document (Word)** to keep a copy, then click **Send to ApexCapitalAsia.Ltd** to submit your application.

Tip: Your application is complete once you see the “Sent” confirmation.

Saving your progress

- Your answers are saved automatically in the browser you are using.
- To continue on another computer, click **Save my progress** (top right) to download a small file, then use **Open saved progress** on the other computer.
- Uploaded documents are stored in your secure folder, so you don't need to upload them again.

Frequently asked questions

Do I need to answer every question?

No. Answer what you can. Blank or “Not sure” answers are marked in the draft and we will complete them with you.

Is my information confidential?

Yes. Your documents are stored in a private folder accessible only to the AI:Xcelerator team at ApexCapitalAsia.Ltd and are used only to evaluate your application and prepare your documents.

Is the downloaded document final?

No. It is a working draft. It will be reviewed and finalised with you, U.S. securities counsel and your auditors before it is used with investors.

I don't know which type of raise is right for us.

That's fine. Keep the suggested option. Determining the best route is part of our evaluation.

Something isn't working.

Refresh the page. Your answers are kept. If the problem continues, contact us through apexcapital.asia.

Important notice

The Fund Raising Online Application produces working drafts for review by the issuer, U.S. securities counsel and auditors. It is not legal, tax or investment advice and is not an offer to sell, or a solicitation of an offer to buy, any securities.
